DON'T LET CONTAMINATION RUIN YOUR WORK!

We have a solution to the never-ending struggle against microbial/fungal airborne, waterborne and endogenous contamination.

PPM™ (Plant Preservative Mixture) is used successfully by well-known research institutions, universities, commercial companies, private laboratories, and nurseries worldwide, in a wide variety of applications.

Samples of PPM™ can now be ordered for testing purposes for \$10.00 (includes shipping & handling). \$10.00 will be refunded to you at time of first purchase from the purchase price.

Mail this form with check or money orders payable to:
